Warm Your Soul, Just Like Mom— with ShariAnn's Organic Chicken Soup

For the organic food-lover's soul! Today, more than ever, people are conscious of the health benefits of a diet of organic and natural foods. ShariAnn's soups are made with certified organic free-range chickens. Their soups are also free of synthetic additives and flavor enhancers, which contributes to a more "home-made" taste.

These delicious soups are the next best thing to Mom's. The line consists of four products: Chicken Noodle Soup; Chicken Rice Soup; Chicken Vegetable Soup; and Chicken Broth, all containing organic vegetables, spices, rice and eggs, respective to their labels.

These fine soups are available nationwide and in Canada, in health food stores, gourmet markets and many other stores. For more information about ShariAnn's Organic, Inc., please contact them by phone (734) 426-0989 or visit their website at www.shariannorganic.com.
